SPECIFICATION - REV 01

APRIL 2008

ENTECH SERIES 1420:A RAINSCREEN CLADDING SYSTEM, from 2mm or 3mm thick aluminium, dependant upon panel dimensions, the panels having return flanges with receptors to engage in Entech Rotary Lock Bolts (European Patent No. 0304338), the panels being flat or being concave or convex as required, the bolts being mounted in aluminium channels, the channels being attached to the building structure with adjustable brackets to facilitate alignment, all external visible surfaces of the panels being finished in Entech high quality polyester powdercoat in a wide range of standard RAL colours or other alternative finishes including PVF2 and similar resin-based systems, all being to detailed design and approval.

ENTECH SERIES 1420:S RAINSCREEN CLADDING SYSTEM, as the series 1420:A but from 2mm thick Grade 316 stainless steel, satin brushed or bead blast finish, all being detailed design and approval.
