SPECIFICATIONS – REV. 01

JANUARY 2007

ENTECH SERIES 1454 PASSAGEWAY CABLE MANAGEMENT SYSTEM, consisting of pressformed curved soffit panels, from 1.6mm zinc coated mild steel, curved to the tunnel contour, all visible external surfaces of the panels being finished in Entech High Quality Polyester Powdercoat RAL 9016 White, or an alternative RAL colour as required, the panels being attached to continuous rails with end pivot hinges, the rails being supported by roll-formed channel hoops at 1000mm nominal centres, the central panels being secured in the closed position with ¼ -turn latches, the support hoops being fixed to the tunnel substrate with M10 resin anchors, together with perforated side panels (Registered Design No. 3015771) housing light fittings to provide wall-wash and general passageway lighting, with custom-designed change-of-direction tubular cladding assemblies (British Patent Application No. 0425239.1), consisting of 19mm diameter tubes at 25mm nominal centres, the tubes being housed in end frames to provide tri-directional articulation to accommodate planar differences in alignment between the adjoining panels, together with fixed central panels to incorporate mountings for CCTV housings, all being to detailed design and approval.

ENTECH SERIES 1454:A PASSAGEWAY CABLE MANAGEMENT SYSTEM, as for the Entech Series 1454 PCMS, but from 2mm thick aluminium, polyester powdercoat finish.
